EDUCATION

- Kamla Nehru Institute of Technology** Sultanpur, India
Bachelor of Technology - Information Technology; (CGPA: 8.8) July 2020 - July 2024
Courses: Programming, Data Structures and Algorithms (DSA), Database Management System (DBMS), Object-Oriented Programming Concepts (OOPs), Operating System, Machine Learning, Web Development, Data Analytics, Software Engineering

EXPERIENCE

- Tata Consultancy Services - Developer (Full Time)** Onsite
TCS is a global IT services, consulting and business solutions organization. September 2024 - Present
 - Project:** Offshore and Onsite Testing, Defect Identification and Resolution, and Automated Test Execution
 - Task:** Contributed to the development and maintenance of the CA and Billing module.
 - Task:** Primarily responsible for functional and integration testing to ensure the stability and accuracy of business-critical processes.
 - Task:** Identified, analyzed, and resolved bugs in Java and SQL code across multiple components.
 - Task:** Collaborated with cross-functional teams to validate fixes and support production issue resolution.
- GeeksForGeeks - Teaching Assistant DSA (Intern)** Remote
A computer science portal that offers resources, coding challenges, and interviews. October 2023 - September 2024
 - Task:** Conducting interactive doubt resolution sessions for learners, addressing queries related to various computer science topics.
 - Task:** Contributing to the development and improvement of educational content related to data science, DSA, MERN, Java, and Python.
 - Impact:** Received positive feedback from participants, indicating a tangible improvement in their understanding and performance.

PROJECTS

- PDF RAG System (Python, FastAPI, Qdrant, LLMs, Streamlit)** : Developed a Retrieval-Augmented Generation (RAG) application using Python, FastAPI, Vector Database, and Large Language Models (LLMs) to enable users to upload PDF documents and interact with them through natural language queries. Implemented PDF parsing, text chunking, and embedding generation for efficient document processing and semantic search. Integrated a vector database to store and retrieve document embeddings, ensuring accurate context retrieval. Leveraged LLMs to generate context-aware responses based on retrieved information, improving answer relevance and reducing hallucinations.
- AI-Powered Travel Planner Assistant (CrewAI, LangChain, Streamlit, LLMs, Agentic AI)** : Developed an AI-powered travel planning assistant that generates personalized itineraries based on user preferences and destinations. Implemented a multi-agent architecture to research destinations, recommend attractions and accommodations, and create optimized travel schedules. Leveraged Large Language Models (LLMs) to enable intelligent decision-making and natural language interactions through an interactive web interface.
- Movie Recommendation System (Python, NLP)** : Utilized Python and diverse machine learning libraries to engineer a cutting-edge movie recommendation system. Applied hyperparameter optimization techniques to fine-tune the model, resulting in highly accurate and personalized movie suggestions. Tech: Python, NLP, Scikit-learn, Pandas, Seaborn, Matplotlib, Streamlit.

SKILLS SUMMARY

- Programming:** C++, Java, Python, HTML, CSS, Javascript, SQL
- Generative AI:** Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Prompt Engineering
- Tools:** Git, GitHub, Microsoft Office, MySQL Workbench, Jupyter, Winscp
- Frameworks and Libraries:** LangChain, CrewAI, Scikit-learn, NumPy, Pandas, Inngest
- Agentic AI:** AI Agents, Multi-Agent Systems, Agentic AI Workflows, Embeddings

ACHIEVEMENTS

- I consistently practiced **DSA** on Leetcode for over **500+ days**, showcasing dedication and expertise.
- Open Source Contributor at Hacktober Fest 2022, showcasing collaborative software development skills.
- Solved over **800 questions** on various platforms (**Leetcode, GFG**), showcasing strong problem-solving abilities.
- Organized a machine learning hackathon in college, fostering innovation and technical excellence among participants.

CERTIFICATIONS

Microsoft Azure AI Fundamentals	Certificate Link	Issued by - Microsoft
Database and SQL for Data Science with Python	Certificate Link	Issued by - IBM
Machine Learning with Python	Certificate Link	Issued by - Coincent
Data Science Course	Certificate Link	Issued by - Technophilia
Foundations: Data, Data, Everywhere	Certificate Link	Issued by - Google
Supervised Machine Learning: Regression and Classification	Certificate Link	Issued by - DeepLearning.AI
